

**ONCOR ELECTRIC DELIVERY COMPANY LLC
PUBLIC PARTICIPATION MEETING FOR THE PROPOSED
WATERMILL SWITCH — WILMER SWITCH 345 kV TRANSMISSION LINE
PROJECT
DALLAS COUNTY, TEXAS**

TUESDAY, DECEMBER 17, 2024

EDDIE BERNICE JOHNSON STEM ACADEMY
201 S. GOODE ROAD
WILMER, TX 75212
5:00 – 7:00 PM

1. In your opinion, has the need for the project been adequately explained to you?
Yes _____ No _____

How could we have improved this effort?

2. Were the exhibits and explanations of the need for the project helpful to you?
Yes _____ No _____

3. Was the information presented helpful for your understanding of the project?
Yes _____ No _____

4. The Public Utility Commission of Texas requires that several factors be considered when routing an electric transmission line, including:

- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial structures, business structures, churches, hospitals, nursing homes, and schools;
- Proximity to commercial radio transmitters, microwave relay stations or other electronic installations;
- Proximity to parks and recreational areas;
- Proximity to FAA-registered airports, private airstrips, and heliports;
- Proximity to historical or archeological sites;
- Agricultural areas irrigated by traveling irrigation systems;
- Environmentally sensitive areas, and
- Protected or endangered species.

Halff has plotted these features that we know about on the Environmental and Land Use Constraints Map. To your knowledge, are those features shown on this map accurately plotted? Yes ___ No ___

Are you aware of any of these features that are not presently shown or are incorrectly located on this map? Yes ___ No ___

If so, please help us identify the approximate location of any missing or incorrectly located features in the space below.

5. The routing of a transmission line includes consideration of land use factors including the following. Please rank the following factors in order of importance to you. Indicate the most important factor with a number 1, the second most important with a number 2, and so on.

- _____ a) Minimize the overall length of the line
- _____ b) Minimize the length across cultivated land
- _____ c) Minimize the length across pastureland
- _____ d) Minimize the length across road frontage
- _____ e) Minimize the length across residential areas
- _____ f) Minimize the length along wooded areas
- _____ g) Minimize the visibility of the line
- _____ h) Other (please specify)

6. The routing of a transmission line also includes consideration of paralleling and/or utilizing existing corridors (e.g., existing transmission line and roadway corridors). Please rank the following existing corridors that are found within the project study area that you would prefer the new transmission line to parallel and/or use. Indicate your first preference with the number 1, your second preference with the number 2, and so on.

- _____ a) Maximize the distance along existing transmission line corridors
- _____ b) Maximize the distance along existing roadway corridors
- _____ c) Maximize the distance along existing railroad corridors
- _____ d) Maximize the distance along existing property Boundaries
- _____ e) Other (please specify)

7. The routing of a transmission line also includes consideration of the distance to habitable structures and community resources. Please rank the following in the order that you would prefer to maximize the distance from the proposed transmission line. Indicate your first preference with the number 1, your second preference with the number 2, and so on.

- _____ a) Maximize the distance from residences, including single-family and multi-family dwellings
 - _____ b) Maximize the distance from commercial, industrial, and/or business structures
 - _____ c) Maximize the distance from churches
 - _____ d) Maximize the distance from hospitals
 - _____ e) Maximize the distance from nursing homes
 - _____ f) Maximize the distance from schools
 - _____ g) Maximize the distance from parks/recreational areas
 - _____ h) Maximize the distance from historical and archeological sites
 - _____ i) Other (please specify)
- _____
- _____
- _____

8. In your opinion, are there any other factors or features that should be considered in determining the location of the proposed transmission line?

Yes _____ No _____

If so, please list them in the space below.

9. How did you learn about this open house?

10. Which of the following applies to your situation?

- _____ a) Proposed line route is near my home
 - _____ b) Proposed line route is near my business
 - _____ c) Proposed line route is on my land
 - _____ d) Other please specify
- _____
- _____
- _____
